Pipes in Seamless, SAW, DSAW, ERW and HFI

A whole range of seamless and welded pipes can be supplied from stock, or manufactured to your own specifications. For example:

- carbon steel pipes, for pipelines to API 5L (sweet & sour services and offshore applications), for pressure purposes to ASTM A53, A106, A672, for low pressures to ASTM A333, A671;
- Austenitic steel pipes, for high temperature and general corrosive, to ASTM A312, A35B.

Grades: Gr B, Gr 1, Gr 3, P1, P5, P9, P11, P22, X42 ~ X80 (PSL1 OR PSL2); NACE MR 0175, DNV 303,304, 304L, 304H, 316, 316L, 316H, 321, 347, 410S; Monel, Inconel, Incolloy, Hastelloy; Duplex pre 31-35.

Seamless and welded pipe fittings

Seamless and welded fittings, in sizes from 1/8" to 24" and larger, from stock or manufactured to your own specifications. We offer:

- carbon steel sour service;
- low alloy high temp;
- 3.5 nickel;
- austenitic 304/316/321/347;
- high nickel alloy;
- Cu-Ni 90;
- duplex pre 31-35;
- super duplex pre 40.

Flanges

Flanges from 1/8" to 48" in all types: slip on, welding neck, socket welding, screwed, spectacles, spades, orifices, long welding necks. Ratings from 150 lbs to 2500lbs.

Grades: 304/L, 310, 316/L, 321/H, 347/H; A 105, LF1, LF2, LF3; F1, F5, F9, F11, F12, F22, F52, F60; F44 & F51; Alloy 200, 400, 600, 625, 800, 825.

Screwed, socket weld and outlet fittings

We supply elbows, tees, full couplings, caps, plugs, bushings, hex nipples, unions, bosses, conc. swage nipples, weldolets, sockolets, thredolets, nipolets, latrolets and elbowlets. Ratings: 3000 lbs, 6000 lbs and sizes: 1/8" to 4" NB, Thread forms include: API
